

Water supply in Dhital 2022

Bau einer Trinkwasserversorgung für den unteren Teil des Dorfes Dhital 2022

Teil 1: Oktober 2021 bis Februar 2022

30.10.2021 Projektausarbeitung

Hi dear monique Thank you so much for the message and the it is really awesome and beautiful. And the file for our Water project work had finished .the new estimation of our water project is out now. Hope that it will be become economical now. But if it is not then please inform us . because it is necessary also.to provide this much amount is not a small things. It's a big amount. And you guys are working really a great job for us.

So monique I am sending the pdf file of our report about water project .
Lots of love
Yours subash☺
